

Save Money: Printing is expensive whereas the additional cost of a digital plan copy is close to zero.

Save Time: Printing documents is slow and the whole process of working with paper versions is slower than with a digital plan.

Save Storage: Paper based plans take up a lot of space and time to organize them.

Ease of Use: Digital plans are easy and convenient to work with.

Instant Access: Finding and opening a digital plan file for review is considerably easier and faster than finding and getting a paper version.

File Sharing: A digital plan can be sent almost instantly to anyone anywhere. Simply not possible with paper versions.

Collaboration: Two or more people can work on file at the same time. And with an integrated webcam video meetings can also be held which working on a document.

Increased Functionality: A significant number of digital plan tools are available, including markup, calculators, information resources and more.

Improved Productivity: The net effect of the benefits of digital plans translate into improved productivity.

Device Support: Digital plans can be viewed on devices of all screen sizes.

Improved Viewing: Especially with a large screen of ARCH equivalent sizes users can easily see the big picture and the small details.
