55" Extreme Narrow Bezel (500nit)	VD-5534-0D00-0100
55" Extreme Narrow Bezel (700nit)	VD-5533-0D00-0100

Bezel Width Comparison

The following shows a comparison of bezel widths available for video wall displays.

The current state of the art is the extremely narrow bezel representing a significant improvement over the ultra narrow and super narrow bezel displays.

Note: Sizes are relative, not absolute as the viewing device will impact the size.

Shown without mounting brackets
