

## **Volanti Displays Demos Products at Mobile Beat Las Vegas**

**Date :** February 20, 2015

**Morgan Hill, CA – February 20, 2015** – Volanti Displays, a Silicon Valley company that specializes in large screen LCD displays will demo their innovative products at Mobile Beat Las Vegas on February 24-25 at the Riviera Convention Center, Las Vegas, NV.

One product of particular interest to DJ's and live performers is The Cube, a unique 3-D display that wowed audiences at the National Association of Music Merchants (NAMM) show in Anaheim, CA, last month. "The Cube will definitely be the coolest LCD display in 2015. Looks like a door to another dimension," said Amp Live, a leading Beat Maker/Producer who helped test The Cube in a recent live performance.

Designed for DJs and performers who want to bring an exciting new element of visuals to their production. Measuring 21" on each side, The Cube displays high-resolution 1920x1920 video on multiple sides. The display quality is incredible, consisting of LCD panels using LED backlight IPS technology.

Also on display will be Volanti's FORZA family of mobile video walls. FORZA products require no custom setup, are durable, and can be ready to go in a matter of minutes. Perfect for any venue.

Demos of The Cube and FORZA will be ongoing at the Volanti Displays Mobile Beat booth #521 from 2 -7 pm on February 24 and 2 – 8 pm on February 25.
