

Quick Start Guide

32", 43", 55"

Installation:

• Connect the Cables

You have two ways to connect your computer:

- Plug the USB-C cable into your computer and other end into back of monitor labeled USB-C. This cable activates both video and touch.

*If your computer doesn't have USB-C, connect the Displayport or HDMI cable for video and USB-C to USB-A to activate touch.

*Cables not provided

• Plug in the Power

- Connect the power cable to the monitor, then plug it into outlet.

Note: The monitor will turn on by itself when it sees a signal from your computer. You can change this in the monitor's settings menu if needed.

Maintenance: Ensure inside edges of the bezel are not obstructed.

In the Box

- Volanti touch monitor.
- Power supply and power cord
- USB-C

Installation:

• Connect the Cables

You have two ways to connect your computer:

- Plug the video cable and USB touch cable into your PC or other compatible device.

• Plug in the Power

- Connect the power cable to the monitor, then plug it into outlet.

Note: The monitor will turn on by itself when it sees a signal from your computer. You can change this in the monitor's settings menu if needed.
